**III. OTHER INFORMATION:**

1	Reasons of loss or inadequate profits	The business environment has been increasingly challenging and margins continue to remain under pressure. The Textile component of industry foresees rising costs of inputs, labour and power to be the key challenges in the financial year 2018-19. To counter these key challenges, cost control and risk management have emerged as the key strategic focus areas for textile companies for the Financial year 2020-2021
2	Steps taken or proposed to be taken for improvement	To address these challenges, the Company has initiated several measures towards achieving organizational and operating efficiencies, alongside working on improvements in process and controls. These cut across manufacturing, supply, chain, quality and other domains, and address issues of cost controls, value analysis. The company has found export opportunities for the same line of textile products which they were doing Job work. The company has taken the lead towards the export in simultaneous with Job Work.
3	Expected increase in productivity and profits in measurable terms	The above measure undertaken is expected to yield positive results in the coming years. While it is difficult to give precise figures, the above initiatives are expected to improve the financial performance of the Company.

The following Statement sets out all material facts relating to the Special Business mentioned in the Notice item No. 11

APPROVAL TO SPLIT THE EQUITY SHARE CAPITAL OF THE COMPANY

The equity shares of the Company are being traded on the BSE Limited. In order to improve the liquidity of the Company's share and to make it more affordable for small investors as also to broad base the small investors, the Board of Directors of the Company, in its meeting held on 10th August, 2021 has recommended to sub-divide (split) the nominal value of each equity share having a present face value Rs.10/- (Rupees Ten Only) each into 10 (Ten) equity shares of Re.1/- (Rupee One Only) each, subject to the approval of the Members.

Article No. 14 of the Articles of Association of the Company permits sub-division of shares subject to

approval of Members. The record date for the aforesaid sub-division of the equity shares will be fixed after obtaining the approval from members of the Company in this General Meeting. Upon approval of the shareholders for sub-division of equity shares, in case the equity shares are held in physical form, the old share certificate(s) of face value of Rs.10/- each will stand cancelled on the record date and the new share certificate(s) of nominal value of Re.1/- each, fully paid-up, will be dispatched to the shareholders. In case the equity shares are in dematerialized form, the sub-divided equity shares will be directly credited to the shareholder's demat account on the record date in lieu of their existing equity shares.

Save and except the above, none of the Directors or their relatives and Key Managerial Personnel or their relatives are, in any way, concerned or interested in the resolutions set out at Item no. 11 of the accompanying Notice.

Accordingly, the Board recommends passing of the Resolution set out in Item No. 11 of the accompanying Notice as Special resolution.

The following Statement sets out all material facts relating to the Special Business mentioned in the Notice item No. 12

The proposed sub-division of the equity shares of Rs.10/- (Rupees Ten only) each into 10 (Ten) equity shares of Re.1/- (Rupee One Only) each requires amendment in the Capital Clause of the Memorandum of Association of the Company. Accordingly, Clause V of the Memorandum of Association is proposed to be amended as set out in Item No. 12 of the accompanying Notice reflecting the corresponding changes in the Authorized Share Capital of the Company consequent to the proposed sub- division to 10,00,00,000 (Ten Crores) Equity Shares of Re.1/- (Rupee One Only) each.

Save and except the above, none of the Directors or their relatives and Key Managerial Personnel or their relatives are, in any way, concerned or interested in the resolutions set out at Item no. 12 of the accompanying Notice.

Accordingly, the Board recommends passing of the Resolution set out in Item No. 12 of the accompanying Notice as special resolution.

MANAGEMENT DISCUSSION AND ANALYSIS:**❖ INDIA TEXTILE INDUSTRY OVERVIEW*:**

India’s textiles sector is one of the oldest industries in the Indian economy, dating back to several centuries. The industry is extremely varied, with hand-spun and hand-woven textiles sectors at one end of the spectrum, while the capital-intensive sophisticated mills sector on the other end. The decentralised power looms/ hosiery and knitting sector forms the largest component in the textiles sector. The close linkage of textiles industry to agriculture (for raw materials such as cotton) and the ancient culture and traditions of the country in terms of textiles makes it unique in comparison to other industries in the country. India’s textiles industry has a capacity to produce wide variety of products suitable for different market segments, both within India and across the world. The textiles sector has witnessed a spurt in investment during the last five years.

Exports have been a core feature of India's textile sector. Exports of both man-made textile and readymade garments have seen a major boost. A major factor behind the robustness of India's textile industry is its strong production base with a wide range of fibres and yarns. India is among the top producers of jute and silk, and beyond its natural fibres such as cotton, jute, silk and wool; and synthetic, its manmade fibres such as polyester, viscose, nylon and acrylic have also created a niche for themselves in the market.

❖ **OPPORTUNITY***

Indian government has come up with a number of export promotion policies for the textiles sector. It has also allowed 100 per cent FDI in the sector under the automatic route. Union Budget 2020-21, a National Technical Textiles Mission is proposed for a period from 2020-21 to 2023-24 at an estimated outlay of Rs 1,480 crore (US\$ 211.76 million). in Union Budget 2021-22 , The announcement on setting up of seven mega textiles parks, will directly impacting the textile industry, With the concept of these mega parks with a plug and play model, Indian textile and apparel sector, particularly SMEs, can work on scale and build competitiveness in manufacturing The Production Linked Incentive (PLI) scheme for man-made fibres and technical textiles with a total outlay of Rs. 10,683 crore will help the textile industry to become globally competitive, attract large investments and boost employment generation. Further reduction in customs duty on caprolactam, nylon chips and nylon fibre & yarn to 5 per cent is step in the right direction, as it will bring nylon chain on par with polyester and other man-made fibres. Accordingly, the increase in customs duty on cotton from nil to 10 per cent and on raw silk and silk yarn from 10 per cent to 15 per cent will benefit domestic cotton and silk growers. Custom duty policy announced has dual objectives of promoting domestic manufacturing and helping India get on to global value chain and export better as the domestic textile industry will get easy access to raw materials and exports of value-added products, which will make textile industry globally competitive. The Budget allocates Rs. 700 crore for Amended Technology Upgradation Scheme (ATUFs) which will help to clear the pending capital subsidy.

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration Personnel) Rules, 2014]

To,
The Members,
RAGHUVIR SYNTHETICS LIMITED
Rakhial Road, Rakhial,
Ahmedabad - 380023.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **M/s. Raghuvir Synthetics Limited** (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on **31st March 2021** ('Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **31st March 2021** according to the provisions of:

CORPORATE GOVERNANCE REPORT

Corporate Governance

The principal characteristics of corporate governance are Transparency, Independence, Accountability, Responsibility, Fairness, and Social Responsibility. Corporate Governance pertains to system of blending law, regulations and voluntary practices, which enable the Company to attract financial and human capital, perform efficiently and thereby perpetuate it into generating long-term economic value for its shareholders, while respecting interests of other stakeholders and the society as a whole.

It aims to assure the shareholders that it is “Your Company” and it belongs to you. The Chairman and Board of Directors are your fiduciaries and trustees pushing the business forward in maximizing long term value for its shareholders. This report sets out the compliance status of the Company with the requirements of corporate governance, as set out in Pursuant to Regulation 34(3) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for the financial year 2020-2021.

Company’s Philosophy on Corporate Governance

The fundamental approach to corporate governance is to ensure the condition that Board of Directors and managers act in the interest of the Company. The implementation of good corporate governance leads to increase in the long term value of the shareholders and also in the enhancement of the interest of the other stakeholders. The Company is led by the Chairman and the Managing Director who are responsible for implementing the broad policies and guidelines.

Your Company has followed all the mandatory requirement of Corporate Governance complying with the requirements of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirement) Regulations, 2015 (‘Listing Regulations’) and applicable provisions of Companies Act, 2013 and looking forward positively to follow non mandatory provisions. The Company believes that all its operations and actions must serve the underlying goal of enhancing overall shareholder value, over sustained period of time.

BOARD OF DIRECTORS

The Board at Raghuvir Synthetics Limited is entrusted with the responsibility of the Management, directions and performance of the Company. The Board’s primary role is fiduciary. The Board provides leadership, strategic guidance, objective and its independent view to the Company’s management while discharging its responsibilities and ensures that the management adheres to ethics, transparency and disclosures. The Board members take an active part at the Board and Committee meetings and provide valuable guidance to the Management on various aspects of the business, governance and compliance.. The Board of the Company has a good mix of Executive and Non-Executive Directors.

The Board meets at regular intervals to discuss and decide on business strategies/policies and review the financial performance of the Company . The Board Meetings are pre-scheduled and a tentative annual calendar of the Board Meeting is circulated to the Directors well in advance to facilitate them to plan their schedules accordingly. In case of business exigencies, the Board approval is taken through circular resolutions. The circular resolutions are noted at the subsequent Board Meeting. The notice and detailed agenda along with the relevant notes and other material information are sent in advance separately to each Director and in exceptional cases tabled at the Meeting with the approval of the Board.

Number of Independent Directorships : As per Regulation 17A of the Listing Regulations, Independent Directors of the Company do not serve as Independent Director in more than seven listed companies. INDEPENDENT AUDITOR'S REPORT

To the Members of
RAGHUVIR SYNTHETICS LIMITED

Report on the Audit of the Ind AS Financial Statements**Opinion**

We have audited the Ind AS Financial Statements of **RAGHUVIR SYNTHETICS LIMITED** ("the Company"), which comprise the balance sheet as at 31st March 2021, and the Statement of Profit and Loss (Including Other Comprehensive Income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as Ind AS Financial Statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 ("Ind AS"), as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

We have determined that there are no key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexure to Board's report, Business Responsibility Report, Corporate Governance Report and Share Holders Information, but does not include the standalone financial statements and our auditor's report thereon. The other information report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance to initiate actions applicable in the applicable laws and regulations.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015.
 - (e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best

of our information and according to the explanations given to us, the remuneration paid by the Company to its Directors during the year is in accordance with the provisions of Section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- (i) The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements. Refer notes 35 to the financial statements.
 - (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure - B - to the Independent Auditors' Report of even date on the Ind AS Financial Statements of RAGHUVIR SYNTHETICS LIMITED**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting **RAGHUVIR SYNTHETICS LIMITED** ("the Company") as of 31 March 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that

receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF FINANCIAL STATEMENTS**NOTE 1 - COMPANY OVERVIEW:**

Raghuvir Synthetics Limited is a public company limited by shares, domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company operates as Manufacturing of Textile items and Processing of the same. The business of the Company is to offer Exports and Local sale of Made-ups and Processing of fabrics. The registered office of the Company is located at Near Gujarat Bottling, Rakhial Road, Rakhial Ahmedabad – 380023 Gujarat – India. The financial statements for the year ended March 31, 2021 were considered by the Board of Directors and approved for issuance on June 24th, 2021.

NOTE 2 - BASIS OF PREPARATION:

These financial statements have been prepared in accordance with Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, as applicable. Accounting Policies have been consistently applied except where newly issued accounting standard is initially adopted or revision to the existing standards requires a change in the accounting policy hitherto in use. Management evaluates all recently issued or revised accounting standards on an on-going basis.

The financial statements are prepared in INR and all the values are rounded to the nearest Rupees in lacs, except when otherwise indicated.

2.1 Statement of Compliance

The financial statements comprising Balance Sheet, Statement of Profit and Loss, Statement of Changes in Equity and Cash Flow Statement, together with notes for the year ended March 31, 2021 have been prepared in accordance with Ind AS as notified under section 133 of the Companies’ Act, 2013 (“the Act”) and are duly approved by the Board of Directors at its meeting held on June 24th, 2021.

2.2 Basis of Measurement

The financial statements of the Company have been prepared and presented in accordance with the Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis of accounting, except for certain Assets and Liabilities as stated below:

- (a) Financial instruments (assets / liabilities) classified as Fair Value through profit or loss or Fair Value through Other Comprehensive Income are measured at Fair Value.
- (b) The defined benefit asset/liability is recognised as the present value of defined benefit obligation less fair value of plan assets.
- (c) Assets held for sale measured at fair value less cost to sales
- (d) Derivative transactions

The above items have been measured at Fair Value and the methods used to measure Fair Values are discussed further in Note 5.16.

2.3 Functional and Presentation Currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (“the functional currency”). Indian Rupee is the functional currency of the Company.

The financial statements are presented in Indian Rupees (₹) which is the company’s presentation currency.

2.4 Recent accounting pronouncements which are not yet effective

Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

NOTE 3 - SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS:

The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, the disclosures of contingent assets and contingent liabilities at the date of financial statements, income and expense during the period. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the periods in which the estimates are revised and in future periods which are affected.

In the process of applying the Company's accounting policies, management has made the following judgments and estimates, which have the most significant effect on the amounts recognised in the financial statements.

3.1 Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This assessment may result in change in the depreciation expense in future periods.

3.2 Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

3.3 Employee Benefits

The cost of defined benefit plans are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

3.4 Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions relating to these factors could affect the reported fair value of financial instruments.

3.5 Impairment of Property, Plant & Equipment

The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, an impairment loss which is material in nature is accounted for.

3.6 Litigations

The provision is recognized based on the best estimate of the amount desirable to settle the present obligation arising at the reporting period and of the income is recognized in the cases involving high degree of certainty as to realization.

3.7 Allowance for uncollectible trade receivables

Provision matrix takes into accounts historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the day of the receivables are due and the rates as given in the provision matrix

NOTE 4 - SIGNIFICANT ACCOUNTING POLICIES:**4.1 Financial Instruments**

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

(a) Financial Assets

Financial Assets comprises of trade receivables, cash and cash equivalents and other financial assets.

Initial Recognition:

All financial assets which are not recorded at fair value through Profit and Loss are recognized initially at fair value plus transaction costs that are attributable to the acquisition of financial assets. Purchases or sales of financial assets that requires delivery of assets within a period of time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the company committed to purchase or sell the asset.

Subsequent Measurement:**(i) Financial assets measured at amortized Cost:**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and where contractual terms of financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at Fair Value through Other Comprehensive Income (FVTOCI):

Financial Assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are subsequently measured at FVTOCI. Fair Value movements in financial assets at FVTOCI are recognized in Other Comprehensive Income.

Equity instruments held for trading are classified as at fair value through profit or loss (FVTPL). For other equity instruments the company classifies the same as FVTOCI. The classification is made on initial recognition and is irrevocable. Fair Value changes on equity instruments at FVTOCI, excluding dividends are recognized in Other Comprehensive Income (OCI).

(iii) Fair Value through Profit or Loss (FVTPL):

Financial Assets are measured at FVTPL if it does not meet the criteria for classification as measured at amortized cost or at FVTOCI. All fair value changes are recognized in the Statement of Profit and Loss.

De-recognition of Financial Assets:

Financial Assets are derecognized when the contractual rights to cash flows from the financial assets expire or the financial asset is transferred and the transfer qualifies for de-recognition. On de-recognition of the financial assets in its entirety, the difference between the carrying amount (measured at the date of de-recognition) and the consideration received (including any new asset obtained less any new liability assumed) shall be recognized in the Statement of Profit and Loss.

(b) Financial Liabilities**Initial Recognition and Measurement**

Financial Liabilities are initially recognized at fair value plus any transaction costs, (if any) which are attributable to acquisition of the financial liabilities.

Subsequent Measurement:

Financial Liabilities are classified for subsequent measurement into following categories:

(i) Financial liabilities at Amortized Cost:

The Company is classifying the following under amortized cost:

- Borrowing from Banks
- Borrowing from Others
- Trade Payables
- Other Financial Liabilities

Amortized cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus cumulative amortization using the effective interest method of any differences between the initial amount and maturity amount.

(ii) Financial liabilities at Fair Value through Profit or Loss:

Financial liabilities held for trading are measured at Fair Value through Profit or Loss.

De-recognition of Financial Liabilities:

Financial liabilities shall be derecognized when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires.

(c) Offsetting of Financial assets and Financial Liabilities

Financial assets and Financial Liabilities are offset and the net amount is presented in Balance Sheet when, and only when, the Company has legal right to offset the recognized amounts and intends either to settle on the net basis or to realize the assets and liabilities simultaneously.

(d) Reclassification of Financial Assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are categorized as equity instruments at FVTOCI, and financial assets or liabilities that are specifically designated as FVTPL. For financial assets which are debt instruments, a reclassification is made only if there is a change in business model for managing those assets. Changes to the business model are expected to be very infrequent. The management determines the change in a business model as a result of external or internal changes which are significant to the Company's Operations. A Change in business occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively effective from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

(e) Derivative financial instruments
Initial recognition and subsequent measurement

The Company uses derivative financial instruments, such as cross currency swaps and interest rate swaps to hedge interest rate risks. Such derivative financial instruments are initially recognised at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument or on settlement of such derivative financial instruments are recognised in statement of

profit and loss and are classified as Foreign Exchange (Gain) / Loss except those relating to borrowings, which are separately classified under Finance Cost.

4.2 Share Capital

Ordinary Shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or share options are recognized as a deduction from equity, net of any tax effects.

4.3 Property, Plant and Equipment

Property, plant and equipment held for use in the supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. All repairs and maintenance costs are charged to the income statement during the financial period in which they are incurred.

Properties in the course of construction for supply of services or administrative purpose are carried at cost, less any recognised impairment loss. Cost includes professional fees and other directly attributable cost and for qualifying assets, borrowing cost capitalized in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of Property Plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives as prescribed under Part C of Schedule II to the Companies Act 2013, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

Estimated useful lives of the assets are as follows:

Type of Asset	Useful Life
Buildings	30 years
Plant and Machinery	15 years
Electrical Installations	10 years
Furniture and fixtures	10 years
Office equipment	5 years
Vehicles	10 years
Servers and Computers	3 years
Temporary Structure	3 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and are recognised net within "other income / other expenses" in the Statement of profit and loss.

4.4 Intangible assets

Intangible Assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a

straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is de-recognised.

4.5 Assets held for sale

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use.

A sale is considered as highly probable when decision has been made to sell, assets are available for immediate sale in its present condition, assets are being actively marketed and sale has been agreed or is expected to be concluded within 12 months of the date of classification.

Assets classified as held for sale are measured at the lower of their carrying amount and fair value less cost of sale and are presented separately in the Balance Sheet.

Non-current assets held for sale are neither depreciated nor amortised.

4.6 Inventories

Raw Materials, Stock-in-process, Finished Goods are valued at lower of cost or net realizable value. Stores, Colours & Chemicals and Coal are valued at cost. Processed Goods Returned is valued at net realizable value. Cost of stock-in-process and finished goods include materials, labour, manufacturing overhead and other cost incurred in bringing the inventories to their present location.

Items of Colour and Chemicals, Stores and Spares are charged to revenue at the stage of purchase and stock of such items as at the end of the year is accounted at cost.

The stock of scrap / waste materials are valued at estimated net realizable value.

4.7 Impairment

(a) Financial assets (other than at fair value)

The Company assesses at each date of balance sheet, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the twelve-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly, since initial recognition.

(b) Non-financial assets

Tangible and Intangible assets

Property, Plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is an indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from

other assets. In such cases, the recoverable amount is determined for cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

Reversal of impairment loss

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized directly in other comprehensive income and presented within equity.

4.8 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre tax rates that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A provision for onerous contract is recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with the contract.

Contingent liabilities are not recognised in the financial statements. A contingent asset is neither recognised nor disclosed in the financial statements.

4.9 Revenue Recognition

REVENUE:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

The specific recognition criteria described below must also be met before revenue is recognized.

- (i) Sale of Goods Revenue from sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 0 to 180 days upon delivery, usually backed by financial arrangements.
- (ii) Revenue from job work processes are recognized as and when the related jobs are performed, the cost incurred up to reporting date for the in-completed jobs are carried to balance sheet under the head cost on job work in process.

- (iii) The Company accounts for pro forma credits, refunds of duty of customs or excise, or refunds of sales tax/ GST in the year of admission of such claims by the concerned authorities. Benefits in respect of Export Licenses are recognized on accrual basis. Export benefits are accounted for as other operating income in the year of export based on eligibility and when there is no uncertainty on receiving the same.
- (iv) Interest Income is recognized on time proportion basis taking into account the amounts outstanding and the rates applicable. Interest income is included under the head “other income” in the Statement of Profit and Loss.

Contract balances:

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company’s right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in note (i) Financial instruments – initial recognition and subsequent measurement.

Contract liabilities (Advance from customers)

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities (Advance from customers) are recognised as revenue when the Company performs under the contract.

4.10 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned

Leases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company’s net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

The Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

(i) Right-of-use assets

The Company recognises right-of-use assets ("ROU Assets) at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in 4.6 Impairment of non-financial assets.

(ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset. Lease liabilities has been presented under the head "Other Financial Liabilities".

(iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

4.11 Foreign Currency Translation

The functional currency of the company is the Indian Rupee (₹)

(i) Initial Recognition

Transactions denominated in foreign currencies entered into by the Company are normally recorded at the exchange rates prevailing on the date of transaction or at monthly average exchange rate prevailing at the time of the transaction.

(ii) Measurement at the Balance Sheet date

Monetary items denominated in foreign currency at year end date are restated at exchange rate prevailing on that date.

(iii) Treatment of exchange differences

Exchange differences on monetary items are recognised in the Statement of profit and loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

4.12 Borrowing Costs

Borrowing costs include

- (i) interest expense calculated using the effective interest rate method,
- (ii) finance charges in respect of finance leases, and
- (iii) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

4.13 Government Grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attaching to them and that the grants will be received.

When the grant relates to an asset, it is treated as deferred income and released to the statement of profit and loss over the expected useful lives of the assets concerned. When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to statement of profit and loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in statement of profit and loss in the period in which they become receivable.

4.14 Employee benefits
(a) Short-term obligations

Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(b) Post-employment obligations

The Company operates the following post-employment schemes: a) defined contribution plans - provident fund b) defined benefit plans - gratuity plans.

(i) Defined contribution plans

The Company has defined contribution plan for the post-employment benefits namely Provident Fund, Employees Death Linked Insurance and Employee State Insurance and the contributions towards such funds and schemes are recognised as employee benefits expense and charged to the Statement of Profit and Loss when they are due.

The Company does not carry any further obligations with respect to this, apart from contributions made on a monthly basis.

(ii) Defined benefit plans

The Company has defined benefit plan, namely gratuity for eligible employees in accordance with the Payment of Gratuity Act, 1972 the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit method) at the end of each year.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets.

The service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements) is recognised in the Statement of profit and loss in the line item 'Employee benefits expense'.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined benefit liability) and any change in the effect of asset ceiling (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

4.15 Income Taxes

Income tax expense represents the sum of the tax currently payable and deferred tax

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

(iii) Current and deferred tax for the year

Current and deferred tax are recognised in the Statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

- (iv) According to section 115JAA of the Income Tax Act, 1961, Minimum Alternate Tax ('MAT') paid over and above the normal income tax in a subject year is eligible for carry forward for fifteen succeeding assessment years for set-off against normal income tax liability. The MAT credit asset is assessed against the normal income tax during the specified period.

4.16 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period. Where ordinary shares are issued but not fully paid, they are treated in the calculation of basic earnings per share as a fraction of an ordinary share to the extent that they were entitled to participate in dividends during the period relative to a fully paid ordinary share. Diluted earnings per share is computed by dividing the net profit after tax by the weighted average number of equity shares considered for deriving basic EPS and also weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

4.17 Fair Value Measurement

A number of Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair value is the price that would be received on sell of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal market or the most advantageous market must be accessible to the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole. The fair value hierarchy is described as below:

- (a) Level 1 - unadjusted quoted prices in active markets for identical assets and liabilities.
- (b) Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (c) Level 3 - unobservable inputs for the asset or liability.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy.

Fair values have been determined for measurement and / or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(a) Investment in equity and debt securities

The fair value is determined by reference to their quoted price at the reporting date. In the absence of quoted price, the fair value of the financial asset is measured using valuation techniques.

(b) Trade and other receivables

The fair value of trade and other receivables, is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. However in respect of such financial instruments, fair value generally approximates the carrying amount due to short term nature of such assets.

(c) Non derivative financial liabilities

Fair Value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases, the market rate of interest is determined by reference to similar lease agreements.

4.18 Current / non- current classification

An asset is classified as current if:

- (a) it is expected to be realized or sold or consumed in the Company's normal operating cycle;
- (b) it is held primarily for the purpose of trading;
- (c) it is expected to be realized within twelve months after the reporting period; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- (a) it is expected to be settled in normal operating cycle;
- (b) it is held primarily for the purpose of trading;

- (c) it is expected to be settled within twelve months after the reporting period;
- (d) it has no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between acquisition of assets for processing / trading / assembling and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

4.19 Cash and cash equivalent

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consists of balances with banks which are unrestricted for withdrawal and usage.

4.20 Segment Reporting

Segments are identified based on the manner in which the Chief Operating Decision Maker ('CODM') decides about resource allocation and reviews performance.

Segment results that are reported to the CODM include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Segment capital expenditure is the total cost incurred during the period to acquire property and equipment and intangible.

(c) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumption is:

Gratuity:

Impact on defined benefit obligation								
Particulars	Change in Assumption			Increase in Assumptions			Decrease in Assumptions	
	March 31, 2021	March 31, 2020		March 31, 2021	March 31, 2020		March 31, 2021	March 31, 2020
Discount rate	0.50%	0.50%	Increase by	-2.04%	-2.13%	Decrease by	2.15%	2.23%
Salary growth rate	0.50%	0.50%	Increase by	1.71 %	1.51%	Decrease by	-1.65%	-1.46%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined obligation calculated with the projected unit credit method at the end of reporting period) has been applied as when calculating the defined benefit liability recognized in the balance sheet. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior year.

(d) Defined benefit liability and employer contribution

Expected contribution to the post -employment benefit plan (Gratuity) for the year ending March 31, 2021 is Rs 7.17 lacs.

The weighted average duration of the defined benefit obligation is 4 years.

Fair value hierarchy:

The following section explains the judgments and estimates made in determining the fair values of the financial instruments that are recognized and measured at fair value through profit or loss. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

B. Fair value hierarchy for assets:
Financial assets measured at fair value at March 31, 2021 [Rs. in Lacs]

Particulars	Level 1	Level 2	Level 3	Total
Financial Assets				
- Investments	--	--	--	--

Financial assets measured at fair value at March 31, 2020: [Rs. in Lacs]

Particulars	Level 1	Level 2	Level 3	Total
Financial Assets				
- Investments	--	--	--	--

Notes:

Level 1 hierarchy includes financial instruments measured using quoted prices (unadjusted) in active market for identical assets that the entity can access at the measurement date. This represents mutual funds that have price quoted by the respective mutual fund houses and are valued using the closing Net asset value (NAV).

Level 2 hierarchy includes the fair value of financial instruments measured using quoted prices for identical or similar assets in markets that are not active.

Level 3 if one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted compound instruments.

There are no transfers between any of these levels during the year. The Company's policy is to recognize transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

C. Fair value of financial assets and liabilities measured at amortized cost:

The Management has assessed that fair value of loans, trade receivables, cash and cash equivalents, other bank balances, other financial assets and trade payables approximate their carrying amounts largely due to their short-term nature. Difference between carrying amount of Bank deposits, other financial assets, borrowings and other financial liabilities subsequently measured at amortised cost is not significant in each of the years presented.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

D. Derivative Financial Instrument

The Company takes various types of derivative instruments. The category-wise outstanding position of derivative instruments is as under:-

[Rs. in Lacs]

Nature	Particulars of Derivative		Purpose
	As at	As at	
	31st March, 2021	31st March, 2020	
INR - Foreign Currency Swap	11.39 USD	14.62 USD	Hedging of equivalent INR borrowing to mitigate higher interest rate of INR borrowings as against the foreign currency loans with possible risk of principal currency losses

NOTE 41 - FINANCIAL RISK MANAGEMENT:

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The Company's risk management policies are established to identify and analyses the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to re?ect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

Risk	Exposure arising from	Measurement	Management of risk
Credit risk	Cash and cash equivalents, trade receivables, Financial assets measured at amortized cost.	Aging analysis	Diversification of funds to bank deposits, Liquid funds and Regular monitoring of credit limits.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of surplus cash, committed credit lines and borrowing facilities
Market risk – foreign exchange	Recognized financial assets and liabilities not denominated in Indian rupee (Rs.)	Cash flow forecasting Sensitivity analysis	Regular monitoring to keep the net exposure at an acceptable level, with option of taking Forward Foreign exchange contracts if deemed necessary.

(a) Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The company is exposed to the credit risk from its trade receivables, unbilled revenue, investments, cash and cash equivalents, bank deposits and other financial assets. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets.

Allowance for Doubtful Debts

The company has provided allowance for doubtful debts based on lifetime expected credit loss model using provision matrix. Movement in allowance for doubtful debt are as follows:

Particulars	As at March 31, 2021	As at March 31, 2020
Balance as per last financial year	1.70	0.03
Add: Allowance for the year	0.30	1.67
Less: Write off of bad debts and other adjustment (net of recovery)	--	--
Balance at the end of the year	1.99	1.70

Cash and Cash Equivalents:

Credit risk on cash and cash equivalents and other deposits with banks is limited as the Company generally invests in deposits with banks with high credit ratings assigned by external credit rating agencies; accordingly the Company considers that the related credit risk is low. Impairment on these items is measured on the 12-month expected credit loss basis.

(b) Liquidity risk:

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's treasury maintains flexibility in funding by maintaining liquidity through investments in liquid funds and other committed credit lines. Management monitors rolling forecasts of the group's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows.

Financing arrangements:

The working capital position of the Company is given below: [Rs. in Lacs]

Particulars	As at March 31, 2021	As at March 31, 2020
Cash and cash equivalents	61.63	52.89

Liquidity Table:

The Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods is given below. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Company may be required to pay.

(c) Market Risk:

Market risk is the risk arising from changes in market prices – such as foreign exchange rates and interest rates – will affect the Company’s income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of the investments. Thus, the exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency.

(i) Currency Risk:

The Company is exposed to currency risk on account of foreign currency transactions including recognized assets and liabilities denominated in a currency that is not the Company’s functional currency (‘), primarily in respect of US\$, and Euro. The Company ensures that the net exposure is kept to an acceptable level and is remain a net foreign exchange earner.

Exposure to currency risk:

The currency profile of financial assets and financial liabilities are given below:

Particulars	As at March 31, 2020 ¹		As at March 31, 2020	
	Amount in lacs	Rs. in lacs	Amount in Lacs	Rs. in Lacs
Financial Assets				
Trade receivables	-	--	USD 2.31	174.16
Total	--	--	USD 2.31	174.16
Financial liabilities				
Trade payable	--	--	--	--
Total	--	--	--	--

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company’s exposure to the risk of changes in market interest rates relates primarily to the Company’s debt obligations with floating interest rates and investments

Most of the Company’s borrowings are on a floating rate of interest. The Company has exposure to interest rate risk, arising principally on changes in Marginal Cost of Funds based Lending Rate (MCLR). The Company uses a mix of interest rate sensitive financial instruments to manage the liquidity and fund requirements for its day to day operations like short term credit lines besides internal accruals.

The exposures of the Company's financial assets / liabilities at the end of the reporting period are as follows:

[Rs. in Lacs]

Particulars	As at March 31, 2021	As at March 31, 2020
Floating rate borrowings	1358.37	1053.88
	1358.37	1053.88

Interest rate risk sensitivity:

The below mentioned sensitivity analysis is based on the exposure to interest rates for floating rate borrowings. For this it is assumed that the amount of the floating rate liability outstanding at the end of the reporting period was outstanding for the whole year. If interest rate had been 50 basis points higher or lower, other variables being held constant, following is the impact on profit.

[Rs in Lacs]

Particulars	As at March 31, 2021	As at March 31, 2020
Impact on profit – increase in 50 basis points	1.41	5.65
Impact on profit – decrease in 50 basis points	(1.41)	(5.65)

NOTE - 42:

The outbreak of Coronavirus (COVID – 19) pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The company has evaluated impact of this pandemic on its business operations and based on its review and current indicators of future economic conditions, there is no significant impact on its financial results.
